Turn

Each turn, do exactly one: place one remaining guard, or move one of your pieces — not both.

KO — ■■

■ ■■■■: ■■ ■■ 1■ ■■■■, ■ ■ 1■ ■■■■. ■ ■ ■■.

Movement

- King ■: one step orthogonally or diagonally (chess king). Cannot capture squares.
- Guard ■: one step orthogonally. Captures by replacement: enemy guards AND the enemy king (yes guards can take the king too).
- Guards cannot move onto goal squares, except when capturing a king that is on a goal.

Winning & losing

- Win: your king is on an enemy goal square at the end of your turn. Black goals d1/e1/f1, White goals d9/e9/f9.
- Instant loss: your king is captured.
- Surround loss: if every orthogonal neighbor of your king is off-board or occupied by an enemy piece, you lose (edge needs 3; corner needs 2).
- No moves: if you have no legal action on your turn, you lose.
- Guards cannot occupy goals — goals cannot be blocked by guards.
